DS-AT “Alta” Free Standing Kiosk

The DS-AT Alta is the latest in our line of free-standing kiosk enclosures. ADA compliant for wheelchair access, the Alta features your choice of a 17” or 19” high resolution flat panel LCD touch monitors, for a crystal clear display. The Alta comes with an Intel based processor housed in an attractive enclosure. Optional keyboard available. Available in stainless steel face or a choice of powder coat finishes.

The Alta has built-in active ventilation for long system life, front access to all components, surge protector/power strip, and mounting holes for securing the unit to the floor, if desired.

Standard Features:

- Intel-based Processor
- Windows XP Professional operating system
- 10/100 Network card
- 17-inch or 19-inch LCD touch monitor
- Surface Acoustic Wave touchscreen technology
- Programmable auto power down and start up
- Lockable front panel
